

BUZMAN TECHNOLOGIES

passionate people
clear communication **happy customers**
smart solutions excellent experiences
strong ambitions

Buzman Technologies Limited emerged under the foundation of **Dr. John Mbogo Kafuku**; With major specialization in Industrial engineering and Mechanization and in the fields of Sustainable Supply chain, Logistics, procurement, inventory, operations and Quality Management. Buzman began with servicing and selling industrial machinery, agricultural machinery, construction machinery and forklift trucks and all associated spare parts and accessories. Today, Buzman Technologies is also one of the most respected names in the Logistics and material handling industry. Buzman has now grown from 1 founder to more than 50 employees with multiple offices and distribution facilities in Tanzania and East Africa

Buzman is your all around supplier for all quality parts and accessories for material handling, industrial vehicles and agricultural equipment. Be amazed by our extensive range of parts for all makes. Buzman has also entered into partnerships with top quality brands.

We provide all parts and accessories for material handling and industrial equipment worldwide. Buzman offers our customers the widest range of brands and products with multiple options to provide the correct part for whatever environment you are working in.

We are committed to being the worldwide leading supplier of quality parts and accessories for the material handling, industrial and agricultural equipment industry. While we take pride in our quality products, we know that without our customers, we would not exist. We are continually striving to increase our product range and to improve our services in order to be the true one stop shop for our valued customers.

We are looking forward to working with you.

HOW CAN WE SERVE YOU?

Quality is our priority

Is quality also a priority in your business? Rely on BUZMAN as your partner.

In-depth product knowledge and specific testing equipment allows us to continuously improve processes and quality standards.
